Be distinctive

Your Mazda3 already has a strong identity. But you can make it even more distinctive.

A sporty front grill plus fog lamps will give your Mazda3 a whole new look from the front. While the rear aero bumper combined with the rear spoiler and the exhaust tailpipe trim will give your Mazda3 a sporty look from behind. And you can add an extra touch of class by completing the look with a shiny chrome door mirror with matching side marker ring.

The Mazda3 alloy wheel collection has been created not only to stand out with its dynamic designs but also to fulfil stringent safety and quality tests.

Add your own look

When you choose interior items for your Mazda3 in co-ordinating two-tone, they're not just any two-tones, but the kind of bright, dynamic colours you'd expect in something as sporty as the Mazda3. Choose the whole package for a truly stunning interior, or take your pick item by item.

So you can have your steering wheel, gear lever knob or automatic shift knob, and door switch panel trim in red, silver or blue. Or for a more sophisticated look, there's also piano black or aluminium accessories to choose from. Vehicles with four power windows can have a door switch panel in both finishes, and the air vent bezel for all models is available in piano black. For manual transmission vehicles, alloy pedals with rubber grips improve pedal control and sporting credentials.

Travel in style

From roof carriers to dog guards, ski attachments to bicycle carriers, the Mazda3 allows you to transport almost anything in style. Mazda's easy to install ISOFix child seat uses the vehicle anchor points for secure fitting, and is designed to the highest safety standards.

The unique modular audio system lets you select the music media you prefer, from a choice of cassette, MP3, CD changer and MiniDisc - for your favourite type of music on the move.

Practical solutions

Driving the Mazda3 is all about enjoyment. So we have the accessories to do the hard work for you. The tow bar, with fold-away power socket, simply detaches for storage so no one can tell it was ever there. And the mudflaps, scuff plate set and bumper corner protectors keep your Mazda3 protected at all times.

There's also the reversing aid, with its acoustic signal to help you park easily.

And for those cold mornings, the interior pre-heater can be switched on by remote control from outside the vehicle to defrost and pre-heat your car, making it safe and comfortable too.
